

NEWS AND VIEWS . . .

And What Have You

By BOB CRAIG

An important election faces the voters of both the Hamlin and McCaulley School Districts Saturday as it will be up to these people to decide the fate of the McCaulley School system.

From the standpoint of the people of McCaulley it will be a question of whether or not they wish to continue operating their school for the 150 or so children or whether they would rather merge with a larger district. And because of this it is a much harder decision for these people to make.

The voters of Hamlin are being asked to approve or disapprove this merger. We do not believe there is a real issue here as most of the people in the Hamlin district look upon the people of McCaulley as neighbors and a part of the Hamlin community.

We would urge every voter in the Hamlin District to vote Saturday. We hope that they will show their interest in McCaulley by giving the issue a big vote of approval.

We would also urge every qualified voter in the McCaulley District to also vote so that the outcome of the election will be the true will of the people. Because we do not live in the McCaulley District we cannot say which way the issue should be decided. But we recommend that each voter try to approach the matter with an open mind and find out as many facts as possible and then go vote their own conviction.

But regardless of how you vote, please vote.

Another crop of youngsters will be graduating from Hamlin High School Monday night and will be going out to find their places in the world. Most of them will be going on to further their education before they settle down to their life's work. Our wish for each of them would be that they be able to find a lifetime career that they can enjoy. To us the biggest success is finding a job or career that you like. We can think of no more miserable existence than going through life fighting a job that you hate.

Congratulations to each of you.

Have you ever wondered what boys who play football in the fall do the rest of the year to not only stay in shape but also to improve their condition? If you will go down to the field house during last period you will find that the boys spend a good bit of time lifting weights.

And we would recommend that you not get into a contest with these boys on the weight machines down there. The top two boys are pressing 255 pounds. One is Sophomore Donnie Smith, who is pressing 147 percent of his weight, and the other is Raul Solis, a junior, who is pressing 125 percent of his weight.

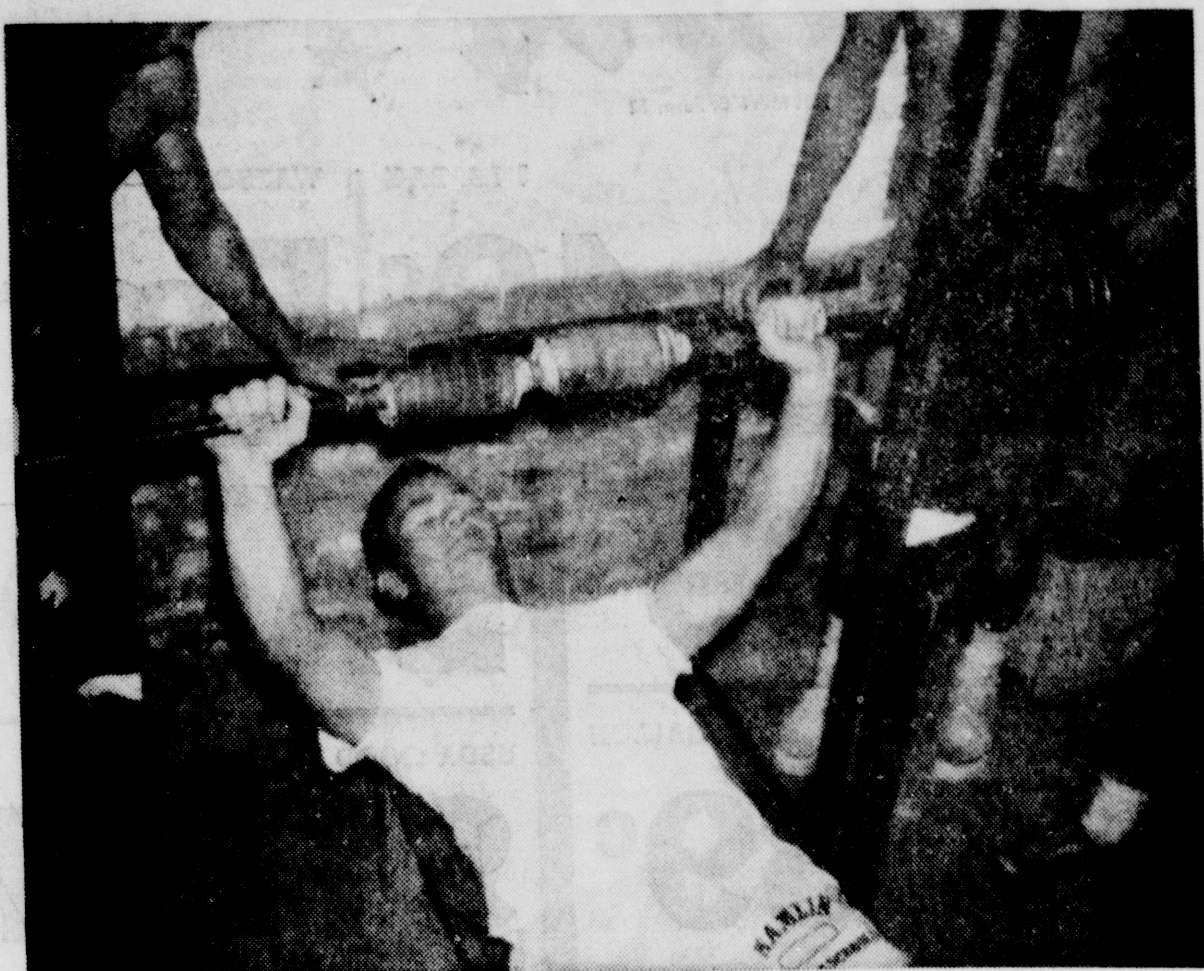

The top two boys based on percentage of their own weight that they can press are Philip Simpson, who weighs 142 pounds and can press 235 pounds and Bob Clifton, who at 142 pounds can press 225 pounds.

The top ten on total weight are Smith, 255; Solis, 255; David Wallace, 245; Mike Brown, 245; Simpson, 235; Ronnie Nelson, 235; Mike Young, 235; Clifton, 225; Sam Bonds, 215; and Sam Ferguson, 215.

The top ten in percentage are Simpson, 159%; Clifton, 159%; Spencer Ford, 156%; Nelson, 152%; Smith, 147%; Paul Long, 147%; Wallace, 141%; Mark Tansil, 140%; Ramon Morales, 137%; and Terry Holt, 133%.

Two of these boys, Spencer Ford and Mark Tansil, are freshmen. Coach Dan Truelove is in charge of the weight room and works with these boys each day.

The boys also work on speed and agility during this last period P.E. class when they are not working on track and basketball. Beginning next year the boys will be able to work on individual skills, such as passing and punting, but up until a recent rule change they have not been able to work with a football out of season.

PRESSING 255 POUNDS — Donnie Smith, sophomore football player, presses 255 pounds in the High School weight room at the field house to hold on to his top position among the 43 boys working on weights. Donnie, who

weighs 173 pounds is pressing 147 percent of his weight. Fourteen of the 43 boys are pressing over 200 pounds in the weight program under Coach Dan Truelove.

who served as president for two years.

Dr. Humphrey, a longtime resident of Abilene, was a teacher of social studies at Abilene High School from 1933 to 1945; assistant principal at Abilene High School from 1939 to 1945 and principal at Abilene High from 1945 to 1950. He was named to his present position in August of 1963 after serving the college as academic dean since 1955.

McCaulley-Hamlin School Merger Vote Set Saturday

The election calling for the consolidation of the McCaulley and Hamlin school districts will be held Saturday, May 20. The polls open at 8 a.m. and close at 7 p.m.

Voters in the Hamlin Independent School District will vote at the high school building. Voters in the McCaulley School district will vote at the McCaulley school.

Both school districts must approve the consolidation for it to become effective.

Twice in the past the voters in the McCaulley district have turned down proposals to consolidate their district.

In a previous election to consolidate with Hamlin, the McCaulley voters turned down the proposal with only 97 voting for consolidation and 119 voting against the issue. At the same time, Aug. 7, 1965, Hamlin voters favored the issue with 165 votes cast for and only 31 against.

In recent months McCaulley voted not to merge with Roby.

Fairview News...

by Mrs. Elmer Joiner
Another Mothers Day has come and gone. Sunday May 14, was the date this year and am sure the community is full of news, if I just only knew about it, for most children get home to see mother on her day.

Summer came and went also, last week one day reached 107 and Monday morning was a low of 44. Is almost unbelievable how the weather

can change so much but it has been an unpredictable year all around so far. So far no rain, a scant 4 fell Sunday morning being of little consequence on this parched earth.

Wheat harvest is in full swing, the showers Saturday were a hindrance but can start again some time today. It is almost out of reason what the wheat is making, considering all the dry

weather we have had. Some yields reached up close to thirty bushels while others barely paid the expense of gathering.

Melinda Wright spent the weekend with her grandparents Mr. and Mrs. Flavil Holmes.

The seniors arrived home Saturday night from their annual trip, tired but reporting a wonderful time. This year they visited the state of Colorado, being something quite different from other years.

Visitors in the Wayne

Hodnett home Saturday afternoon were Mr. and Mrs. Robert Burns, Dallas. Mrs. Burns is a sister of Mr. Hodnett.

Sunday the Wayne Hodnett family spent Mothers Day with her mother, Mrs. P. H. Jones of Loraine.

Mrs. Woodrow Goodwin is stepping high for she has some new carpet, as of last week.

We of the Fairview community were all very happy to learn of Rev. Doyle Combs plans after selling out the paper at Strawn. We hear

that he will be going back to the church at Andrews, from which he resigned upon moving to Strawn. He had a nice church there and am sure the people are happy to have him back for Doyle is a good, God called, preacher. We still love him and his family out our way.

Visitors in the Joiner home Sunday and Sunday afternoon were all of our children, Mr. and Mrs. Buck Joiner, Charles and Susan, Odessa; Mr. and Mrs. Jimmy Joiner, Ronald and Jeannie, Stamford; Mr. and Mrs. J. E. McCoy, Larry

Corky and Kay Taylor.

Other visitors were Mr. and Mrs. Ray Taylor, Mrs. Vashti Castleberry, who came over Sunday afternoon from their cabin at Breckenridge. They have built another room and a porch to their lake cabin, making it twice as big, so now they can accommodate any amount of company.

Billy Hodnett is very happy over his mare presenting them with a beautiful filly colt. Billy has had hard luck trying to raise him a young horse. Lets hope nothing happens to this baby, so far

all is well.

Has been so nice to be at home since Friday afternoon. How true is the saying "Be it ever so humble there's no place like home."

Mr. and Mrs. Mack Perdue are new residents of our community. They are living in the house formerly occupied by the George Wainwrights, having bought the house and five acres of land. The Perdues are former residents of Hamlin.

.23 Inches Rain

Rainfall early Sunday morning of 23 inches was accompanied by unusually cool temperatures. After the 107 degrees of last Wednesday the early morning temperatures in the 40's Monday was a decided change.

During the day Monday the temperature began to rise and on Tuesday air conditions were back into operation.

Long-Time Jones County Native, Thomas J. Routh, Dies Sunday

Thomas J. Routh of Hamlin, 76, one of the oldest surviving natives of Jones County, died early Sunday morning at Hendrick Memorial Hospital in Abilene after a five-week illness.

Mr. Routh was born near Anson March 17, 1891, and had lived in Jones County almost his entire life. He and his wife lived at Crosbyton two years and lived about four years in Fort Worth.

For many years Mr. Routh had farmed the land just south of Hamlin on which his parents moved in 1906. He was the son of the late Mr. and Mrs. Thomas Judson Routh who moved to Jones County about 1889. Mr. Routh was still active as a farmer prior to his illness.

Mr. Routh was well known in the Hamlin-Anson area. He had been very active in the First Baptist Church at Hamlin and served as secretary of the Intermediate Department of its Sunday school for many years. Mrs. Routh taught a women's Sunday school class for more than 35 years.

Mr. Routh had been moved to Hendrick last week from Hamlin Memorial Hospital and had been critically ill prior to that time. He died at 7:40 a.m. Sunday.

Funeral services were held at 3 p.m. Monday at First Baptist Church in Hamlin with the pastor, the Rev. Max Brown, officiating. He was assisted by the Rev. Byron Bryant, alumni director and associate director of development at Hardin-Simmons University in Abilene. Burial will be in Hamlin's East Cemetery.

International Postal Rates Up

An increase in international surface and airmail rates will go into effect Monday, May 1, Postmaster Perry Sparks announced today.

The new international rates, he said, will not apply to mailing for members of the Armed Forces overseas. Domestic postage rates are applicable to mail addressed through APO's and FPO's.

The rate increases for both surface and airmail — averaging 13% — were first proposed on January 14 and publicly confirmed on March 1. The Department explained at that time that they were needed to help offset a deficit of about \$16 million in international operations.

Specific information on the new international rates can be obtained from the service window at the post office, Postmaster Sparks said.

MANY OWN SHARES

More than 20 million Americans own shares in U. S. business firms, including nearly three million who own stock in oil companies. Oil Facts, quoting a New York Stock Exchange study, points out that this means that one out of every seven stockholders owns part of an oil company.

trict this year in Dairy Cattle Judging and Livestock Judging. Members of the dairy cattle team were Keith Bundas, Frank Guerra, and Jimmy Niedecken. Members of the livestock team were Bob Clifton, Randy George, and Gil Lain.

OIL HELPS SUDS

There will be a lot less suds in the nation's rivers, streams and disposal systems from now on, thanks to new "soft" detergents. The new detergents, made from petroleum derived chemicals, will clean just as well as the old "hard" types, but are easily broken down by bacterial action after doing their wash-day duty.

It's what's inside that counts

Southwestern Bell installer trucks carry more than 150 different items—from half-inch nails to telephones to coils of wire. Also on board is a careful driver trained to understand the why's and wherefore's of modern communications.

Throughout the nationwide Bell System, each type of telephone truck is equipped with its own standardized parts and equipment. The same equipment that works in Southwestern Bell also works in any other Bell territory. If trouble strikes—flood, tornado,

hurricane—telephone men from one company can be rushed to another company to aid in fast, efficient service restoration. There's no delay because of equipment that won't work or men who don't know what to do.

In time of emergency or during a regular work day, Southwestern Bell's goal is to provide the best telephone service possible. Our expert craftsmen and a fleet of 8,000 well-stocked trucks help us do just that.

Buy a little place in the country with the money you save on Gas Air Conditioning.

Now you may not get a place just like this for the amount of money you save on gas air conditioning, but you can tell you've saved some money. Gas air conditioning's economy is a big advantage. It's economical to keep up, too.

Fewer moving parts in gas equipment mean fewer repairs, less labor and maintenance costs. Find out about gas air conditioning your place in the country or in the city. Call your air conditioning contractor or LONE STAR GAS.
